

Digital Citizenship

Account Security - Passwords

Here are some discussion questions to think about regarding your passwords.

1. Who should know your password?
2. Why do we need passwords?
3. When should I change my password?
4. What makes up a good password?
5. Where should I go if I need to change my password?

If you feel you need to change your password, work with your teacher to get the information. You may also want to work with your parents to make the change.
