

CREATING A PASSWORD

In the box below, create your own unique password. Make sure it is tricky enough that others couldn't figure it out. Remember don't tell anyone your passwords except for your parents and teachers. If you can mark the boxes below with 3 stars then you know it is a great password!

MY PASSWORD:

A cartoon robot with a yellow body, blue head, and red and yellow wings, holding a blue device. It is standing on brown boots.

Does it have at least 6-8 characters?

Does it have a mix of letters, numbers and symbols?

Is it easy for you to remember and hard for others to guess?

If you check all the boxes above and want to use it as your new password, then make the changes at:
